Webinar Series, October 2020

'Aisyiyah:
Islam, Citizenship and Progressive Womanhood

BACKGROUND

As a movement, the 'Aisyiyah organization has been more than a century old. There are not many organizations that can last more than one hundred years, let alone keep giving meaning to the journey of Indonesian Muslims, women, and families. However, 'Aisyiyah was able to display resilience in the course of history and was able to endure through works of honor and glue to nationalism.

Of course, many things can become a milestone for 'Aisyiyah: empowering programs, inspiring figures, encouraging and soothing discourses, awakening business endeavors, and enlightening breakthroughs. All of that became an inspiring experience to contribute to the Ummah and the nation.

'Aisyiyah's experiences everywhere in various corners of this country need to be explored to become a useful and inspiring knowledge system for the women's movement, the Islamic movement, and the present and future public movement. This knowledge system can be grown through academic and participatory research, both conducted by academics, researchers, activists, and critical groups.

To realize scientific efforts in building a comprehensive knowledge system about 'Aisyiyah, an International Conference on 'Aisyiyah Studies (ICAS) is held. This event will be held regularly to continuously absorb various scientific findings that can be accounted for by various groups so that it can become a comprehensive knowledge system about 'Aisyiyah amid various variants of the women's movement in Indonesia and the world.

The aim of this conference is (1) to contribute thoughts for the 2022 'Aisyiyah Conference to produce strategic decisions for social praxis of Progressive Muslim Women, as well as (2) to build sustainable scientific discourse about 'Aisyiyah studies.
